Annual Report

END VIOLENCE: STAND UP TO SILENCE

For over 40 years CASA's services have been a platform for survivors to find strength and independence. Our programs bring safety and stability to survivors through community action. Historically, neighbors have remained seated in the fight against domestic violence, by treating it as a private family matter thus further isolating victims. We invite the community to join us in speaking out against abuse. Together, if we Stand Up to Silence, we can end domestic violence.
